

RAVEN

Intelligent, universal
access to data

Evolution On An **EASY** Scale

Our vision is **access to data**. Simple, easy, intuitive – an intelligent monitoring device that's accessible via any internet browser. Give it the ability to log live data, store documents, and connect via Modbus TCP/IP. Include Power over Ethernet (PoE) and give it industrial specifications for harsh environments. We call it the RNA1845. The world has called it:

"Absolutely elegant."

Oil & Gas Industry

"At the forefront of a disruptive technology."

Wireless Industry

"The direction we are trying to go right now."

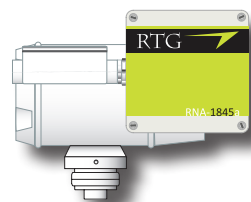

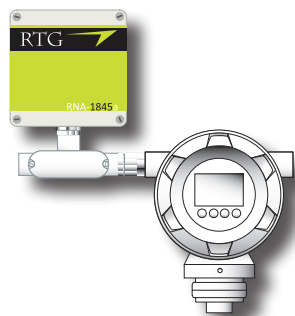

Water Treatment Industry

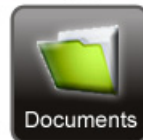

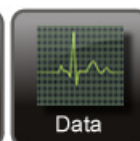

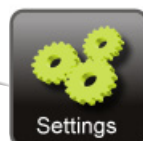

RNA1845

- Access field information from any browser capable-device including a cell phone, PDA, laptop, or desktop.
- Export logging data via CSV and allow your existing systems to archive, model, or chart important information.
- Store valuable Maintenance Logs, Tech Manuals, Calibration Reports and other documents on the device.
- View data, compare data, or setup many devices at once from remote locations without licensing fees, special software, or lap-links.

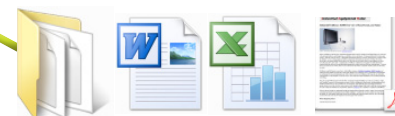

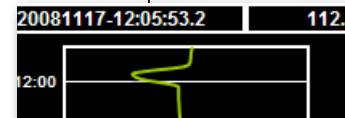

Device Type: Temperature
Signal Type: ANALOG 4-20 Ma.
Range: -40 to 220
Units: Degrees Fahrenheit

Field Device status: **ACTIVE**
Uptime: 3 d, 2 h, 43 m, 8 s
Clock: 20081117-12:57:05.0
Temperature: 48.8° C
Modbus Tcplp: 8

Timestamp	Degrees Fahrenheit
07.09.08 15:45:22.6	134.6

Timestamp	Degrees Fahrenheit
07.09.08 15:48:12.6	80.7
04.15.10 05:45:19.2	75.9
20081117-12:05:53.2	112.8
	76.5

By attaching directly to your field device, you leverage your existing investment in instrumentation, spare parts, and knowledge base – while at the same time benefitting from today's technology and efficiencies; and all at a fraction of the price of the alternative. And, that's just one of the cost saving advantages the RNA offers.

What does this mean to you? No disruption of your process, little or no downtime, no panel space, and simple configuration. Our vision is the natural evolution of data acquisition and process control. Simple, easy, and intuitive access to data. You get more with the RNA Solutions. Let us show you how.
